1. Receipt is acknowledged of the amendment filed September 24, 2003.
2. Claims 1-3, 5-13, 16 and 40-55 are still pending in this instant application.
Claims 4, 14-15 and 17-39 were previously cancelled.
3. Applicant has essentially changed the invention due to the amendment to the claims. A new search and examination has been required for the new claimed invention with the resultant effects according to the following paragraphs.
4. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 1-3, 5-7 and 40- 41 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention with respect to the term "preparations" based on the enabling written description.

Claims 1-3, 5-7 and 40- 41 are rejected under 35 U.S.C. 112, first paragraph, because the specification, while being enabling for the claimed inventions as described in the written description on pages 4-6 and the examples, does not reasonably provide

enablement for the new broad claimed inventions pertaining to "preparations" having the required unobvious and unexpected synergistic effects for the combinations of fibre (extracts) as disclosed in the specification on page 4. The specification does not enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the invention commensurate in scope with these claims.

5. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter, which the applicant regards as his invention.

Claims 1-3, 5-7 and 40- 41 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The scope of the term "preparations" is not defined in the instant specification. The product claims are thus rendered vague and indefinite as to the appropriate scope of the claimed subject matter absent limitations that are considered to indicate the product obtained by the claimed processes.

6. Claims 8-13 and 16 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

7. Claims 42-55 are allowed.

8. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
